

This document certifies that

Raul Garcia Veiga

has attended the

Nextflow

12th -15th September 2023

Topics covered in the training (18h):

- Locate and fetch Docker/Singularity images
- Execute/Run a Docker/Singularity container
- Build Docker container
- Design/Write a Docker recipe.
- Convert Docker to Singularity image.
- Locate and fetch Nextflow pipelines
- Execute/Run a Nextflow pipeline
- Describe and explain Nextflow's basic concepts
- Test and modify a Nextflow pipeline
- Implement short blocks of code into a Nextflow pipeline
- Develop a Nextflow pipeline from scratch
- Run pipeline in diverse computational environments
